NIS 2 compliance in Italy

By May 31, 2025, essential and important entities are required to submit to the ACN the updated information set required by the regulation.

Download our insights from the link available below in this page to have further details on this topic.

**

On May 23rd, the Italian National Cybersecurity Agency (ACN) announced that **NIS subjects who have requested support** for finalizing their annual data update **will be able to complete this procedure by July 31st**.

The ACN has further clarified that members of administrative and executive bodies will be permitted to complete the self-verification procedure beyond July 31st, notwithstanding that a specific reference deadline has not yet been designated.
